Chorus

Ig - ne - ous, met - a - mor - phic, sed - i - men - tar - y Ig - ne - ous, met - a - mor - phic,
sed - i - men - tar - y Ig - ne - ous, met - a - mor - phic, sed - i - men - tar - y
These are the rocks in the crust of the earth. 1. Ig - ne - ous rocks are from the
la - va that flows - - - from the might - y vol - can - oes
When that la - va is good and cool Ig - ne - ous rocks will form
to chorus
That's the rule

Verse 2.
Metamorphic rocks are the king of change
Over time they will rearrange
Add a lot of pressure and make them hot
What they are becomes what they're not
(chorus)

Verse 3.
Sedimentary rocks are like last night's dinner
Leftovers made into something new
Layer upon layer over lots of time
Fabulous fossils are what you may find
(chorus)
