

Shells

From my CD, "Plant a Little Seed"

To go along with one of my summer reading program concerts (She Sings Sea Songs), I'm offering this song I wrote to sing with my homemade African tambourines.

Directions on how to do it are on my website. Follow the link on the homepage for Activity Pages and select "Homemade Instruments".)

They are a fun project which younger children can participate in, or older children can make by themselves.

They take two hands to play, so are a bit unusual. See if you can think of some other songs to sing with them!

Shells

1. Shells from under the ocean, shells from under the sea
If you find a pretty shell, you can bring it home to me
2. Shells from the coast of Africa, or from the Florida keys
If you find a pretty shell, you can bring it home to me
3. Shells the colors of a rainbow, or shells as white as can be
If you find a pretty shell you can bring it home to me
4. Shells from under the ocean, shells from under the sea
If you find a pretty shell you can bring it home to me
