

Goin' On A Ferry Ride

Summer in the Seattle usually means taking a ferry boat to someplace fun, and making some great memories with your family. Here in Washington State we have the largest ferry system in the United States! You can have children sing the “yes I did,” lines and also ask what they would take on a ferry. You’ll get some pretty interesting answers! Kids are fascinated with boats so big you can drive your car (or your truck) onto them, and this simple song is a great way to learn about them. Happy Boating!
