

Farm Machinery Song

Kids love singing and learning about vehicles, and the farm has lots of big busy things that go! Discuss with children how the tractor is used to pull other things that do different jobs on the farm.

AGE: 4-7

PROPS: Books about farm machinery, spring planting on the farm . Check your local library!

INSTRUCTIONS: Have pictures of different kinds of farm machinery, and especially tractors and combines. Talk about what they do, how they are used. Children can sing along with the chorus.

Farm Machinery Song

Every morning down on the farm
We get up just before dawn
And I put on a pair of jeans and an old tee shirt
Then all day long I work and play in the dirt

Chorus

I'm a ridin' on the tractor, on the combine too
Ridin' along on that farm machinery's what I love to do

The tractor pulls the tools I need
To plow the dirt and to plant the seed
And to weed and feed the crops in every row
The combine cuts and cleans the grains we grow
(Chorus)
