1. Now the sun is slowly going down, as a  
quiet settles over the sleepy town, it's time to gather your bedtime  
things all around it's time to settle your body down I'm gonna  
**CHORUS:** tuck you in with a song. I'm gonna wrap you in a melody  
all night long, I'm gonna rock you with a rhythm that's gentle and strong, I'm gonna  
tuck you in with a song. And when the stars are shining above  
your head you can snuggle down in your cozy bed  
Close your eyes and let the dreams roll by and sleep until the morning light. - - (I'm gon-na)
